THE SECURITY
INSTITUTE

GUARDING SERVICES

IRELAND'S NUMBER ONE GUARDING SERVICES PROVIDER

Your trusted partner in security and the number one choice for professional guarding services in Ireland.

At Pulse Security Management, we provide highly trained, reliable security personnel who deliver unmatched protection and peace of mind. Whether you require on-site security, front-of-house representatives, or specialist protection, we tailor our services to meet your needs with precision and professionalism.

MANNED GUARDING

Our manned guarding service ensures continuous on-site protection, deterring threats and responding swiftly to any security concerns. From corporate offices to industrial sites, our guards are trained to provide professional, proactive security that keeps businesses, assets, and people safe.

FRONT OF HOUSE SECURITY

First impressions matter. Our front-of-house security personnel combine customer service with vigilant security, ensuring that your business remains both welcoming and secure. Whether at a corporate office, luxury hotel, or private event, our team manages access, assists visitors, and upholds safety with professionalism and discretion.

FILM & PRODUCTION SECURITY

The film and production industry requires specialized security, and our team is trained to protect sets, cast, crew, and equipment in both public and private locations. We ensure smooth operations by managing access, securing locations, and safeguarding high-profile individuals, allowing productions to run safely and without disruption.

MOBILE SERVICES

FAST, FLEXIBLE, AND RELIABLE SECURITY ON THE MOVE

At Pulse Security Management, we provide dynamic mobile security solutions designed to protect businesses, properties, and assets around the clock. Whether you need rapid response, routine patrols, or secure opening and closing procedures, our highly trained mobile teams ensure your premises remain safe at all times. Our dedicated fleet of security vehicles, combined with real-time monitoring and expert personnel, allows us to provide a visible deterrent, immediate response, and a proactive approach to security management.

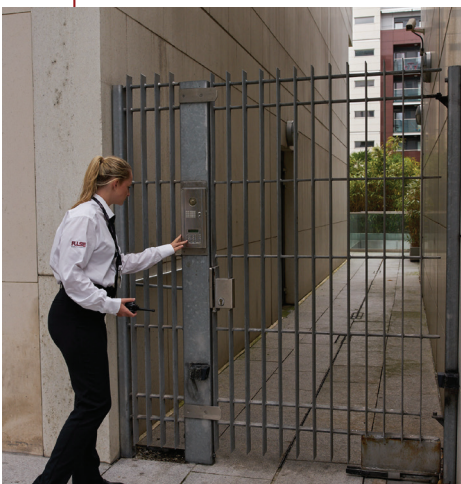

KEY HOLDING & ALARM RESPONSE

Our key holding and alarm response service ensures that your property is always protected, even when you're not there. We securely hold your keys and respond immediately to any alarm activation, emergency, or access request. Instead of business owners or staff having to risk their safety responding to alarms, our trained security professionals handle the situation, conducting thorough checks, securing the premises, and coordinating with emergency services if required. With Pulse Security, your business, staff, and assets are in safe hands—24/7.

MOBILE PATROLS

For businesses that don't require full-time security but need regular, visible monitoring, our mobile patrols provide randomized or scheduled site checks, ensuring your premises remain secure at all times. Our patrols are ideal for large sites, business parks, retail centers, and properties that need overnight security. Officers conduct perimeter inspections, identify security risks, and respond to suspicious activity—offering a highly effective security presence without the cost of static guarding.

OPENING AND CLOSING SERVICE

Managing the opening and closing of a business comes with risks. Whether it's ensuring employees are safe when arriving early or locking up securely at night, Pulse Security Management handles these critical moments with precision and reliability. Our team ensures your premises are thoroughly checked, access points secured, and alarm systems properly set, reducing the risk of unauthorized entry, theft, or security breaches. Let us take care of these responsibilities so you can focus on running your business with peace of mind.

TECHNOLOGY SERVICES

ADVANCED SECURITY SOLUTIONS FOR COMPLETE PROTECTION

At Pulse Security Management, we specialize in cutting-edge technology solutions that provide businesses, homes, and industrial properties with unmatched protection. Our fully integrated security systems offer 24/7 monitoring, rapid response capabilities, and seamless access control, ensuring a safe and secure environment at all times. Whether it's high-definition surveillance, intelligent alarm systems, or advanced access control solutions, our technology division is designed to meet the evolving security needs of our clients.

CCTV MONITORING

24/7 Surveillance with Intelligent Security Solutions

Our CCTV systems provide high-definition monitoring and remote access, ensuring constant oversight of properties and assets. With custom installations, businesses can integrate CCTV seamlessly into existing security infrastructure. Clear visuals, smart analytics, and ongoing support ensure round-the-clock protection and immediate threat detection.

INTRUDER & FIRE ALARM SYSTEMS

Our intruder alarm systems use advanced motion sensors and intrusion transmitters to detect unauthorized access and instantly notify keyholders. Seamless integration with CCTV and fire alarms enhances security oversight. Our fire alarm solutions provide early smoke, heat, and carbon monoxide detection, ensuring rapid emergency response to protect life and property.

ACCESS CONTROL SOLUTIONS

Our access control systems provide secure, automated entry management through key fobs, swipe cards, and biometric access. Intercoms, turnstiles, and electronic gates offer additional layers of protection, ensuring that only authorized personnel can enter restricted areas. Designed for businesses, residential properties, and high-security sites, our solutions provide precision, reliability, and total security management.

EVENT SERVICES

ENSURING SAFE, SEAMLESS, AND SECURE EVENTS

At Pulse Security Management, we specialize in providing expert security solutions for events of all sizes. From crowd management to VIP protection, our highly trained teams ensure that every event runs smoothly, safely, and without disruption. Whether it's a corporate function, concert, festival, or high-profile gathering, we deliver tailored security solutions that protect guests, staff, and assets.

EVENT SECURITY

Our event security teams provide a strong, professional presence, ensuring safe and controlled environments at concerts, festivals, sporting events, and private functions. With expertise in crowd control, access management, and emergency response, we ensure that events run smoothly and securely. Our proactive approach helps prevent incidents before they arise, allowing organizers to focus on delivering a successful event.

EVENT STEWARDING

Our event stewards are trained to provide guidance, support, and assistance to attendees while ensuring a safe and well-managed event space. Acting as the first point of contact, our stewards direct crowds, assist with seating, and respond to minor issues, all while maintaining a welcoming and professional demeanor. With expertise in customer service and event logistics, our stewarding team helps create a safe and enjoyable experience for all guests.

VIP & CORPORATE EVENT SECURITY

For VIP gatherings, corporate functions, and high-profile events, Pulse Security Management provides specialist security solutions that prioritize discretion, professionalism, and efficiency. Our teams handle guest screening, access control, and close protection, ensuring that high-profile individuals can attend events safely and without disruption. Whether securing executive meetings, gala events, or celebrity appearances, we deliver seamless protection with minimal intrusion.

RISK MANAGEMENT

PROACTIVE SECURITY SOLUTIONS TO PROTECT PEOPLE, BUSINESSES, AND ASSETS

At Pulse Security Management, our Risk Management services are designed to identify, mitigate, and manage threats before they escalate. We provide specialist security solutions that protect individuals, businesses, and organizations from potential risks, ensuring safety, discretion, and strategic planning. Whether it's close protection, crisis response, or private investigations, our expert teams deliver tailored security strategies for high-risk environments.

RISK MANAGEMENT SERVICES

Risk Management is about staying one step ahead. At Pulse Security Management, we help clients prepare for and respond to potential threats before they become serious issues. This can include personal protection for high-profile individuals, crisis support during unexpected events, or discreet investigations into sensitive matters. Our goal is to give you confidence and control, no matter the situation.

CRISIS MANAGEMENT

In times of emergency, security breaches, or corporate threats, Pulse Security Management provides immediate crisis response and risk mitigation. Our team is trained to handle threat assessments, emergency evacuations, and incident management, ensuring businesses and individuals receive swift and effective solutions in high-pressure situations. Through strategic planning and proactive risk analysis, we help clients minimize damage and regain control during security crises.

PRIVATE & COMMERCIAL INVESTIGATIONS

We provide specialist investigative services for corporate fraud, internal security breaches, and private matters. Using covert surveillance, background checks, and digital forensics, our investigators deliver accurate intelligence and actionable insights. Whether dealing with employee misconduct, financial fraud, or personal security concerns, we conduct investigations with discretion, legality, and professionalism.

CLOSE PROTECTION

ELITE SECURITY FOR HIGH-RISK INDIVIDUALS AND ASSETS

At Pulse Security Management, our Close Protection services provide discreet, highly trained security personnel to protect individuals, residences, and high-value assets. Whether safeguarding executives, VIPs, or high-net-worth individuals, we deliver strategic, tailored protection solutions that prioritize safety, discretion, and professionalism.

RESIDENTIAL SECURITY

Our residential security services ensure continuous safety for private homes, estates, and high-profile residences. We provide dedicated security personnel, advanced surveillance, and access control measures to prevent unauthorized entry and mitigate threats. Whether securing a primary residence or a temporary stay, our protection teams ensure complete privacy, safety, and peace of mind.

SECURE TRANSPORT SERVICES

We offer secure transport services for executives, VIPs, and high-value assets, ensuring safe travel with minimal risk. Our trained security drivers provide route planning, real-time threat assessment, and discreet security escort services, allowing clients to move freely and securely. Whether traveling for business, events, or international engagements, our secure transport solutions guarantee a smooth and protected journey.

EXECUTIVE CLOSE PROTECTION

Our Executive Close Protection services provide specialized security for high-profile individuals, business leaders, and dignitaries. Our highly trained operatives offer discreet yet effective protection, adapting to various environments while maintaining a low-profile presence. Whether at public events, corporate functions, or private engagements, our team ensures that clients remain safe without disruption to their daily activities.
